SHIPPING STRIKE ON GREAT LAKES IS CALLED OFF

Officers of the unions of lake seamen and firemen sent messages to the union headquarters along the Great Lakes last night withdrawing the strike order which had been issued to take effect today.

Union officials here expected that the men now out would return to work at once and that the other men who were preparing to leave their vessels tomorrow would continue on them.

Action by the union officials followed telegrams by E. N. Hurley, chairman of the Shipping Board to William Livingstone, president of the carriers, at Cleveland, Ohio. The unions had wired Livingstone Saturday at Detroit, but had received no response, Hurley said.

"The United States Shipping Board hereby directs the members of the Great Lakes Carriers' Association and the Lake Carriers' Association as an association to sign the nation's appeal for men to man its merchant ships as originally drafted and without any charges."

W. S. S. CLUBS FORMED BY BUSINESS HOUSES

In connection with the war savings and thrift stamps campaign in Wash-
ington, employees of business houses have organized to take more active part and at a meeting Friday night employees of Berberich's and Every-
body's shoe stores pledged themselves to systematically save every week by having a specified part of their salary given them in war stamps.

Joseph A. Berberich is an ardent worker in the W. S. S. campaign. His name is on the roster of "The \$1,000 Club," and with William F. Gude, he is organizing war savings stamps societies among employees of business concerns.

Public schools, under the lead of Supt. Ernest L. Thurston, will continue their work immediately after the reopening of the schools for the fall term.

ANNAPOLIS, Md., July 28.—Boat-
swain Samuel G. Cole, of the United States naval reserve force, was found guilty of drunkenness and sentenced to dismissal from the service by a court-martial which assembled here on June 4. The sentence has been confirmed by the President.

Hearst's Magazine for August

Orin Schwab

THE United States today is the greatest ship building nation the world has ever seen. This year, even, we shall hold our own with the submarine. Next year all Germany's skulking U-boats won't be able to sink ships fast enough to keep up with us.

Hurley—father of the giant pneumatic riveter, with sagacity matched only by his patriotism, has called Schwab—the steelmaster—to aid the rescue of the world. These two, with a million patriotic workers, are building a sure foundation for America's future.

The English Navy has swept Germany's flag off the seas, Schwab's army of American shipbuilders will never let it creep back again!

IN his spirited foreword to William Almon Wolff's fact-story "Ships, Ships, and More Ships" in Hearst's for August, Schwab tells us three things that we can do to help him bring Victory. To him, as the others making our Nation leader in the world's most magnificent enterprise, Hearst's offers a chance—through its half million loyal American readers—to fling the Truth in the face of all puny Pessimists, petty Politicians and professional Faultfinders.

"Think of that" writes Wolff "next time some one starts to tell you, in a breathless whisper, that our ship building program has fallen down."

Don't you weary of high minded critics who would willingly lose a battle to prove their Government at fault? Aren't you tired of attacks on able executives, by men you would hesitate to put in complete charge of a corner grocery? Aren't you about ready for a constructive patriotic policy like Hearst's?

If you don't wish to think well of your own Government, you won't want Hearst's this month or any other. But if you want the truth and really prefer to be patriotic—to know the best about your country—you won't fail to read "Ships, Ships, and More Ships" in the August
